MT- PASSIVATOR 10

PASSIVATION FLUID

Description:

MT- Passivator 10 is a liquid compound formulated for protecting all metal parts against to corrosion. MT- Passivator 10 contains organic chemicals and surface agents, it provides corrosion resistance for short periods such as 15 days or 1 month on the metal surfaces.

Benefits:

MT-Passivator 10 offers these benefits:

1. Non-flammable in liquid form.
2. Readily soluble in hard and soft water at recommended concentrations.
3. Free of chromate and phenols.
4. Readily rinses from parts with hot or cold water.
5. Easy to control solution by simple titration test.

Use instructions:

MT- Passivator 10 is used 30-50 g/lit (3-5 %) of concentration in water. It is used by immersion method in chemical tanks. These tanks may be made from Steel or Stainless Steel. Operation temperature should be between 20 °C and 40 °C.

Physical Properties:

pH (50 g/lit, 25 °C) = 9,00-10,00

Density (pure, 25 °C) = 1,00-1,10 g/ml

Disposal information:

Dispose of spent solution per local, state and regional regulations.

Caution:

MT- Passivator 10 contains organic compounds. Avoid contact with eyes, skin and clothing. Do not take internally. Consult Material Safety Data Sheet before use.

Packaging

Packaged in 35 kg (77 lb) or 200 kg (440 lb) drum

Storage

Store, dry area between +5, +40. Keep container closed when not in use.

Notice:

The above information and recommendations concerning this product are based upon our laboratory tests and field use experience. However, since conditions of actual use are beyond our control, any recommendations or suggestions are made without warranty, express or implied. Manufacturer's and seller's sole obligation shall be to replace that portion of the product shown to be defective. Neither shall be liable for any loss, damage, or injury, direct or consequential, arising out of the use of this product.
